Stretch, Lift, or Tap (SLoT)

HOW OLDER ADULTS CAN STAY ACTIVE INDOORS DURING THE COVID-19 PANDEMIC

1 Make a list of the things you do on a daily basis.
   You can include things such as meal time, bathing, watching TV, reading, or phoning friends.

2 Think about how to SLoT more movement into each activity on your list.
   SLoT refers to the actions Stretch, Lift, or Tap. Turn over this page for ideas on how to do this.

3 Start small.
   Pick 1-3 extra movements to add during the coming week. Add more movements each week.

4 Keep track of your progress on a calendar or diary.
   It can be motivating to see your accomplishments. Make note of how you feel too! Extra movement can have positive effects on your overall physical and mental health.

5 Ask friends or family to keep you accountable.
   A phone call with friends or family might encourage you to keep moving. Better yet – encourage them to do the same!

6 Use our mobility games to keep the fun going. Click below.

Older adults can lose 1-5% of muscle mass each day if they are not physically active\(^1\). If you are unable to leave your living space because of illness, disability, or public health measures it is important to think creatively about how to keep moving. No matter what your mobility level is, there are lots of ways to stay active indoors!
### STRETCH.
- Put toiletries further away and reach out for them
- Move your arms from side to side while drying your back with a towel
- Move your arm or leg up high before putting on an item of clothing
- Set the table for a meal – stretching to reach different parts of the table
- Stretch your arms wide when folding a large towel or bed sheet

### LIFT.
- Do arm curls with a shampoo bottle while bathing
- Put away one clean dish at a time on a shelf above you
- Lift a vegetable or a can of soup to assist with meal prep
- Lift clothing out of the washer or dryer
- Sitting on the edge of your bed, shuffle your bottom along the length of the bed before getting dressed
- Toss a salad with salad tongs or servers (seated or standing)
- Lift a container of water to water a plant
- Lift a water jug out of the fridge and pour a drink

### OR

### TAP.
- While sitting, tap your toes on a bath mat to dry the soles of your feet after a bath
- Tap your toes on the floor while the kettle is boiling
- Tap your shoulders with the tips of your fingers while your food is being cooked or reheated
- Tap your hands or toes every time you take a medication
- Tap your toes on the floor while sitting on the toilet
- Tap your hands on a table while listening to music
- Fluff pillows by tapping them to even them out
