

## E-Learning Series for Clinicians: Features and Frequently Asked Questions

### Features

- A FREE educational offering developed by the RGP of Toronto and Provincial Geriatrics Leadership Ontario and Canadian geriatric clinicians
- The series covers topics of clinical relevance in the care of older adults living with frailty: *Delirium, Loneliness, Mobility, Nutrition, Pain, Polypharmacy, and Urinary Incontinence.*
- Each module features:
  - presentation with commentary by a geriatric clinician
  - quiz to assess learning
  - resource page with links to tools referenced in the module
  - certificate of completion for each module once all elements (module, quiz and reviewing the resource page) have been completed

### Who uses this, and how?

- **Clinicians** (physicians, nurses, social workers, occupational therapists, physiotherapists, and paramedics) – self-study
- **Geriatric specialists** – to support training for their residents
- **Organizations** – to implement a new clinical training program or replace or refresh their current clinical training program, including for staff who are being redeployed.
- **OHTs** – to implement a common platform for learning across all of their partner organizations

### How much time will it take?

- The total run time for the seven modules is 189 minutes (3 hours and 9 minutes):
  - Delirium: Runtime = 30 minutes
  - Mobilization: Runtime = 16 minutes
  - Pain: Runtime = 34 minutes
  - Nutrition: Runtime = 26 minutes
  - Loneliness: Runtime = 20 minutes
  - Urinary Incontinence: Runtime = 23 minutes
  - Polypharmacy: Runtime = 40 minute
- Due to high demand, we ask learners to complete the series **within four weeks of registering**, in order for us to be able to accommodate new learners on the platform.

### Do I have to do the modules in order of presentation? Can I do them all in one sitting?

- You can choose which modules you would like to take – one, some, or all. The modules can be taken in any order you like.
- You can work at your own pace; completing the series in one sitting, several at a time, or one at a time.

### How do I enroll?

- You can self-enroll and complete modules at your own pace.
- [Click here to enroll in e-learning](#) on the Canvas e-learning platform, and enter join code **KYPFHJ**.

- Returning learners can login anytime from the [Canvas login page](#). Once you have created an account, you can log in to the platform from anywhere, at any time, to continue working on the series, for up to one month.

#### **Can I enroll my whole team or multiple teams in my organization in this learning series?**

- Yes! You can enroll your staff to complete this training in cohorts.
- We encourage you to contact the RGP of Toronto at [info@rgptoronto.ca](mailto:info@rgptoronto.ca) to plan your cohorts. We want to make sure there is enough space for your staff to participate.

#### **How can I evaluate learning for a team?**

- Organizations can augment self-study by offering virtual Q+A sessions with geriatric clinicians after learners have completed the modules to help solidify the new knowledge and to determine if there are remaining knowledge gaps.
- For evaluation, a link to your pre/post survey can be embedded on the learning platform for your teams to access. We encourage you to contact the RGP of Toronto at [info@rgptoronto.ca](mailto:info@rgptoronto.ca) to discuss.

#### **I'm trying to convince my leaders and/or teams to sign up for the learning series. Can someone from the RGP of Toronto give us a presentation?**

- Yes! Please email [info@rgptoronto.ca](mailto:info@rgptoronto.ca) if you would like the RGP of Toronto to do a brief virtual presentation for your organization.
